

## IPS Style® Ceram Inter Incisal

The IPS Style® Ceram Inter Incisal material is used to increase the brightness value of the incisal third. It is applied directly on the dentin in an implied butterfly shape.

<b>IPS Style® Ceram Inter Incisal</b>	<b>1 x 20 g</b>
White-blue	<b>673322</b>

## IPS Style® Ceram Cervical Transpa

The IPS Style® Ceram Cervical Transpa materials reproduce the shades with a more intensive translucency and support the natural transition from the gingiva to the veneer.

Orange-pink	<b>673324</b>
Khaki	<b>673325</b>
Orange	<b>673326</b>

## IPS Style® Ceram Incisal

The IPS Style® Ceram Incisal materials are modelled according to the natural incisal material. In combination with the Dentin materials, they help achieve the correct A–D shade.
