

IPS e.max® ZirCAD for inLab® Blocks

IPS e.max® ZirCAD Blocks are available in nine sizes and five shades. They are processed in the inLab System from Dentsply Sirona. Given their high strength and homogeneous shading, they are excellently suitable for the fabrication of esthetic crown and bridge frameworks. Moreover, IPS e.max ZirCAD convinces users with the option of quick sintering in the Programat S1. The frameworks represent the optimum shade base for manual veneering using IPS e.max Ceram, for veneering by means of the press-on technique with IPS e.max ZirPress.
