

Plaque Test

Fluorescent disclosing liquid to reveal bacterial biofilm on the surfaces of natural and restored teeth or implants.

Advantages:

- Fluorescent under any curing light
- Easy handling
- No inconvenient staining of tongue and mucous membranes

Delivery forms

Refill	1 x 11 g	533299

Proxyt®

The prophy paste system with defined Relative Dentin Abrasion values (RDA) enables professional cleaning and polishing of teeth, restorations and implants according to the individual needs of patients. The pastes contain xylitol, which inhibits the growth of the bacteria that cause caries.

Containing fluoride

Proxyt RDA 83, coarse
Proxyt RDA 36, medium
Proxyt RDA 7, fine

Fluoride-free

Proxyt RDA 36, medium

Advantages:

- Customized, gentle cleaning and polishing
- Scratch-free cleaning of sensitive surfaces using the fine Proxyt without pumice
- Smooth consistency, splatter-free formula
- Fresh peppermint taste
