

OptraDam® Plus

OptraDam® Plus is an anatomically shaped rubber dam for the absolute isolation of the working field. It offers the clinician increased visibility and accessibility. In addition, the device facilitates the evacuation of water spray. OptraDam Plus provides patient comfort and assists in keeping the patient's mouth open due to its three-dimensional flexibility.

(Ivoclar Vivadent AG, Liechtenstein)

Indication:

Suitable for use in therapeutic dental procedures for which an absolutely dry and isolated working field is required (e.g. for adhesive cementation, filling therapy and root canal treatments).

Advantages:

- Easy application thanks to the integrated frame and pre-printed arch template
- High patient comfort thanks to the flexible, three-dimensional design
- Simultaneous isolation of both arches thanks to the tension-free placement
